TITLES
OF
PUBLISHED PAPERS
FROM THE
WELLCOME BUREAU OF SCIENTIFIC RESEARCH

Founded 1913 by Henry S. Wellcome

C. M. Wenyon, C.M.G., C.B.E., M.B., F.R.S., Director-in-Chief
25-28, Endsleigh Gardens, Gordon Square, W.C.1

1913

*1. Sewage Disposal in the South of England—Andrew Balfour.

*2. Recent Views on Syphilis, Spirochætes and Sleeping Sickness—Andrew Balfour.

1914

*3. Ants as Transmitters of Tropical Disease—Andrew Balfour.

4. The Wild Monkey as a Reservoir for the Virus of Yellow Fever—Andrew Balfour.

*5. Febrile Intestinal Schistosomiasis and its Occasional Resemblance to Febrile Appendicitis — Andrew Balfour.

*6. The So-called *Plasmodium tenue* (Stephens) — Andrew Balfour and C. M. Wenyon.

*7. The Occurrence of Certain Structures in the Erythrocytes of Guinea-Pigs and their Relationship to the So-called Parasite of Yellow Fever—C. M. Wenyon and G. C. Low.

1915

*8. Tropical Problems in the New World—Andrew Balfour.

8a. A Sarcocyst of a Gazelle (*G. rufifrons*) showing differentiation of Spores by Vital Staining—Andrew Balfour.

9. The So-called Parasite of Yellow Fever—C. M. Wenyon and G. C. Low.

10. The Pigmented Parasites of Cold-Blooded Animals, with some Notes on a Plasmodium of the Trinidad Iguana—C. M. Wenyon.

*11. Preventive Inoculation Against Typhoid and Cholera—Andrew Balfour.

*12. Notes on the Rearing of *Stegomyia fasciata* in London—Malcolm E. MacGregor.

*13. Note on the Occurrence of *Lankesteria culicis* in West Africa—A. C. Stevenson and C. M. Wenyon.

14. Flagellate Forms of *Leishmania donovani* in the Tissues of an Experimentally Infected Dog—C. M. Wenyon.

15. Leishmania Problems: Observations on a Recent Contribution to the Subject—C. M. Wenyon.

16. Notes on the Treatment of Diarrhœa and Dysentery issued by the Advisory Committee for the Prevention of Epidemic Diseases in the Mediterranean Expeditionary Force—Andrew Balfour.

* *The numbers marked with an asterisk are out of print*

17. Observations on the Common Intestinal Protozoa of Man: Their Diagnosis and Pathogenicity—C. M. Wenyon.

18. Another Human Coccidium from the Mediterranean War Area—C. M. Wenyon.

1916

*19. The Toxicity of Emetine—Andrew Balfour and F. L. Pyman.

20. On the Occurrence of Herpetomonads (?) in Gerbils—Andrew Balfour.

*21. Memorandum on the Carriage of Cysts of *Entamœba histolytica* by House-flies, with some Notes on their Resistance to Disinfectants and Other Agents—C. M. Wenyon and F. W. O'Connor.

22. The Protozoological Findings in Five Hundred and Fifty-six Cases of Intestinal Disorder from the Eastern Mediterranean War Area—C. M. Wenyon.

*23. Resistance of the Eggs of *Stegomyia fasciata (Aedes calopus)* to Conditions adverse to Development—Malcolm E. MacGregor.

24. The Medical Entomology of Salonika—Andrew Balfour.

25. Morphia Injector's Septicæmia (Whitmore's Disease)—A. C. Stevenson.

25a. An Inquiry into some Problems affecting the Spread and Incidence of Intestinal Protozoal Infections of British Troops and Natives in Egypt, with Special Reference to the Carrier Question, Diagnosis and Treatment of Amœbic Dysentery, and an Account of Three New Human Intestinal Protozoa—C. M. Wenyon and F. W. O'Connor.

*26. Note on *Culex pipiens* Breeding 66 feet below Ground—Malcolm E. MacGregor.

*27. Fly-traps for Camps, Hospital Precincts and Trench Areas—Andrew Balfour.

1917

*28. The Action of Certain Emetine Derivatives on Amœbæ—F. L. Pyman and C. M. Wenyon.

*29. A Summary of our Knowledge of Insect Vectors—Malcolm E. MacGregor.

*30. Trypanosomes in the Brain Tissue of an Experimental Guinea-Pig—A. C. Stevenson.

*31. A Note on the Solubility of Malarial Pigment—A. C. Stevenson.

1918

32. The Presence of Trypanosomes in Brain Substance—A. C. Stevenson.

*33. A Note on the Duration of Infections with *Entamœba histolytica*—Clifford Dobell and A. C. Stevenson.

*34. Sanitary and Insanitary Makeshifts in the Eastern War Areas—Andrew Balfour.

*34a. The Prevention of Malarial Infection—Malcolm E. MacGregor.

* *The numbers marked with an asterisk are out of print*

BARCODE AT BACK

1919

35. One Side of War — Andrew Balfour.

35A. Notes on the Life-cycle of the Sudan Fowl Spirochæte — Andrew Balfour.

36. The Chadwick Lectures on the Problem of Hygiene in Egypt— Andrew Balfour.

*37. A Method of Demonstrating Spirochætes for Museum Purposes—Andrew Balfour.

*38. A Note on Transmission of *T. rhodesiense* from Mother to Fœtus —A. C. Stevenson.

*39. On the Occurrence of *Stegomyia fasciata* in a Hole in a Beech Tree in Epping Forest—Malcolm E. MacGregor.

40. A New Mosquito of the Genus Orthopodomyia from a Beech Tree Hole in England—Malcolm E. MacGregor.

*41. A Method of Preventing the Stranding of Mosquito Ova while Hatching—Malcolm E. MacGregor.

1920

*42. The possible Use of *Azolla filiculoides* as a Deterrent to Anopheline Breeding — Malcolm E. MacGregor.

*43. The Question of Natural Enemies — Malcolm E. MacGregor.

*44. A Note on *Dermatophilus penetrans* —Malcolm E. MacGregor.

45. Links with the Tropics—Andrew Balfour.

46. Histological Observations on the Possible Pathogenicity of *Trichomonas intestinalis* and *Chilomastix mesnili*, with a note on *Endolimax nana*—C. M. Wenyon.

47. The Teaching of Army Hygiene as an Aid to Military Efficiency —S. H. Daukes.

*48. Locality Differences in the Feeding Habits of Mosquitoes— Malcolm E. MacGregor.

*49. Graphic Method of Demonstrating Tropical Medicine and Hygiene — Andrew Balfour and S. H. Daukes.

*50. The Health Factor in Education—S. H. Daukes.

*51. Some Important Tropical Fruit Foods—G. C. Dudgeon.

*52. A New Type of Entomological Killing Bottle — Malcolm E. MacGregor.

*53. On a Remarkable New Species of Porocephalus *(P. pomeroyi,* n.sp.) from the Foregut of a Nigerian Cobra — W. N. F. Woodland.

54. Observations on the Intestinal Protozoa of Three Egyptian Lizards, with a Note on a Cell-invading Fungus—C. M. Wenyon.

*55. Hæmogregarines in the Leucocytes of Black Rats— G. E. F. Stammers.

1921

*56. Observations on the Use of Citrated Media—H. C. Brown.

*57. The Treatment of Small-pox by the External Application of Potassium Permanganate — Andrew Balfour.

* *The numbers marked with an asterisk are out of print*

*58. Some Observations and Experiments on Insect Flagellates, with Special Reference to Artificial Infection of Vertebrates—C. A. Hoare.

*59. Rat Destruction: A Suggestion —Andrew Balfour.

60. Mosquito Breeding in Saline Waters—Andrew Balfour.

61. Notes on the Histo-pathology of Typhus Fever—A. C. Stevenson and Andrew Balfour.

62. Malaria in Macedonia, 1915-1919 —C. M. Wenyon.

63. The Action of "Bayer 205" on *Trypanosoma equiperdum* in experimentally infected mice—C. M. Wenyon.

*64. The Influence of Drought upon Mosquito Life in Surrey—Malcolm E. MacGregor.

65. The Influence of the Hydrogen-ion Concentration in the Development of Mosquito Larvæ —Malcolm E. MacGregor.

*66. The Structural Differences in the Ova of *Anopheles maculipennis*, *A. bifurcatus* and *A. plumbeus*—Malcolm E. MacGregor.

67. Medical and Sanitary Survey of Mauritius—Andrew Balfour.

68. Simple Culture Medium for Cultivation of Leptospira and Protozoa—C. M. Wenyon.

*69. *The Practice of Medicine in the Tropics*, edited by Byam and Archibald. Section on Personal Hygiene in the Tropics and Minor Tropical Sanitation—Andrew Balfour.

1922

70. *The Practice of Medicine in the Tropics*, edited by Byam and Archibald. Sections on (1) Fleas (Siphonaptera) and (2) Bugs (Rhynchota). Vol. I—Malcolm E. MacGregor.

*71. Prevention and Cure—S. H. Daukes.

*72. The Care of Laboratory Animals—W. J. Muggleton.

73. The Incidence of a Leptospira in the Kidneys and of Parasites in the Intestines of One Hundred Wild Rats Examined in England—A. C. Stevenson.

74. Three Supposed New Entamœbæ of Man (A Review)—C. M. Wenyon.

75. Review of Recent Literature on Leishmaniasis—C. M. Wenyon.

76. Kala azar and the Bed-bug—C. M. Wenyon.

78. Occurrence of *Heligmosomum brasiliense* in England—G. C. Dudgeon.

79. Microscopic Parasites and their Carriers—C. M. Wenyon.

80. The Use of Phenol Red as an Indicator for Milk and Sugar Media—H. C. Brown.

*81. Note on the Treatment of Whip-Worms by *Higueron* latex—Andrew Balfour.

82. *T. gambiense* in the Brain Substance of a Case of Sleeping Sickness—A. C. Stevenson.

83. Observations on the Amœbicidal Action of Conessine—H. C. Brown.

84. Trypanosomiasis in British Sheep: Preliminary Communication—C. A. Hoare.

85. The Outlook in Tropical Hygiene—Andrew Balfour.

*86. Laboratory Notes on a Case of Weil's Disease in London—C. M. Wenyon and H. C. Brown (in collaboration with P. H. Manson-Bahr).

* *The numbers marked with an asterisk are out of print*

87. Observations on Wild Rats in England, with an Account of their Ecto- and Endo-parasites —Andrew Balfour.

*88. Permanganate of Potash in Small-pox—Andrew Balfour.

89. Observations on Canine Fæces on London Pavements: Bacteriological, Helmintholo-gical and Protozoological— H. C. Brown and G. E. F. Stammers.

*90. Spirochætes in Blackwater Fever. Review of French Work in Congo—C. M. Wenyon.

*91. *Official Medical History of the War,* Vol. I. Chapters on Relapsing Fever; East African Relapsing Fever or Tick Fever; Phlebotomus Fever—Andrew Balfour.

*92. Plaster of Paris Backgrounds for Museum Specimens—H. G. Bugg.

*93. *Official Medical History of the War,* Vol. I. Chapter on Malaria— C. M. Wenyon.

*94. The Laboratory Assistant in the Tropics—Andrew Balfour.

1923

95. The Cure of Sleeping Sickness— Andrew Balfour.

*96. *Porocephalus pomeroyi*—W. N. F. Woodland.

97. Mites on Mosquitoes—Andrew Balfour.

98. Demonstration of the Cycle of *Filaria loa* in Chrysops— A. C. Stevenson.

99. The Use of Rhubarb in Acute Bacillary Dysentery — H. C. Brown.

100. Note on the Pathological Changes in the Brain of a Case of Sleeping Sickness— A. C. Stevenson.

101. Notes on the Trypanocidal Action of the Serum and Cerebro-spinal Fluid of Cases of Human Trypanosomiasis treated with "205" and on a Strain of *Trypanosoma rhode-siense*—C. M. Wenyon.

*102. A Justification of *Porocephalus pomeroyi*—W. N. F. Woodland.

103. The Sanitary Inspector in the Tropics—Andrew Balfour.

104. On *Amphilina paragonopora,* sp. n. and a hitherto Undescribed Phase in the Life-history of the Genus—W. N. F. Woodland.

*105. The Larva and Pupa of *Orthopo-domyia arboricollis*—Malcolm E. MacGregor (with S. Gébert, Mauritius).

106. Some Protozoological Notes for the Laboratory — C. M. Wenyon.

*107. On *Ilisha parthenogenetica* from the Pyloric Cæca of a Fish— W. N. F. Woodland.

108. Sojourners in the Tropics— Andrew Balfour.

*109. Health in the Tropics — Andrew Balfour.

110. Influence of the Medium on the Toxicity of certain Alkaloids towards Protozoa— T. A. Henry and H. C. Brown.

111. Problems of Acclimatisation— Andrew Balfour.

112. The Mode of Transmission of Malaria: A Hypothesis advanced by Richard Pfeiffer in 1892—C. M. Wenyon.

** The numbers marked with an asterisk are out of print*

113. Hæmogregarines in Man, with Notes on some other supposed Parasites — C. M. Wenyon.

114. Coccidiosis of Cats and Dogs and the Status of the *Isospora* of Man—C. M. Wenyon.

*115. Sanguinicola from the Sudan—W. N. F. Woodland.

116. Modern Weapons against Insect-borne Diseases — Andrew Balfour.

117. Some Foodstuffs in the Tropics —Andrew Balfour.

*118. On a Trypanosome occurring in British Sheep, and its Transmission by the Sheep Ked—C. A. Hoare.

*119. The One-host Life-cycle of *Hymenolepis fraterna*, Stiles, of the Mouse—W. N. F. Woodland.

*120. On Some Remarkable New Forms of *Caryophyllæidæ* from the Anglo-Egyptian Sudan, and a Revision of the Families of the Cestodaria — W. N. F. Woodland.

121. An Experimental Study of the Sheep Trypanosome (*T. melophagium*, Flu, 1908), and its Transmission by the Sheep Ked (*Melophagus ovinus*, L.)—C. A. Hoare.

122. Malaria and *A. funestus* in Mauritius — Malcolm E. MacGregor.

*123. Notes on "Bayer 205"—C. M. Wenyon.

*124. *Official Medical History of the War*, Vol II. Chapter on Typhus Fever—Andrew Balfour.

*125. *Official Medical History of the War*, Hygiene, Vol. I. Schools of Sanitation and Instruction in Hygiene. Disposal of Waste Products—S. H. Daukes.

1924

126. The Development of Modern Anti-malaria Campaigns—Malcolm E. MacGregor.

127. On the Life-cycle of *Hymenolepis fraterna* (*H. nana* var. *fraterna*) of the White Mouse—W. N. F. Woodland.

128. Observations on Reputed Dysentery Remedies — T. A. Henry and H. C. Brown.

129. A Note on the Specific Name of the Herpetomonad of the House-fly—C. A. Hoare.

130. Report on the Anophelinæ of Mauritius — Malcolm E. MacGregor.

*131. Note on "Bayer 205"—C. M. Wenyon.

*132. A Note on the Fertilisation of Anopheles — Malcolm E. MacGregor.

*133. *Aëdes (Stegomyia) mascarensis*, MacGregor: New Mosquito from Mauritius—Malcolm E. MacGregor.

*134. The Modus Operandi of Kidney Secretion—W. N. F. Woodland.

135. A Trepomonas Coprozoic in Human Fæces—C. M. Wenyon and W. Broughton-Alcock.

136. *Hepatozoon adiei:* A Blood Parasite of an Indian Eagle—C. A. Hoare.

*137. On a New Caryophyllæid from an Egyptian Siluroid—W. N. F. Woodland.

*138. Cement for sealing Museum Jars—H. G. Bugg.

Filtration of Used Glycerine Solution—H. G. Bugg.

Mounting Frail Specimens — H. G. Bugg.

* *The numbers marked with an asterisk are out of print*

*139. Review of Dr. Dale's Address on "Specific Treatment of Infections by Artificial Remedies" at British Association —C. M. Wenyon.

140. The Clinical Thermometer as a Carrier of Infection — H. C. Brown.

141. On a New Species of the Cestodarian Genus Caryophyllæus from an Egyptian Siluroid— W. N. F. Woodland.

*142. Note on Sanguinicola from the Sudan: A Correction—W. N. F. Woodland.

143. The Fermentation of Salts of Organic Acids as an Aid to the Differentiation of Bacterial Types—H. C. Brown, J. T. Duncan and T. A. Henry.

144. A Case of Congenital Malaria occurring in England — H. C. Brown and J. Llewellyn Jones.

145. Tests with *Chara fœtida* and *C. hispida* on the Development of Mosquito Larvæ—Malcolm E. MacGregor.

146. Special Apparatus and Technique for the Study of Mosquitoes and Other Aquatic Insects — Malcolm E. MacGregor.

147. On the Development of the Human *Hymenolepis nana* (Siebold, 1852) in the White Mouse; with Remarks on "*H. fraterna*," "*H. longior*" and *H. diminuta*—W. N. F. Woodland.

148. On a new Bothriocephalus and a New Genus of Proteocephalidae from Indian freshwater Fishes — W. N. F. Woodland.

1925

149. A Contribution to the Biology of *Ornithodorus moubata*, Murray —B. Jobling.

*150. Health in the Tropics—C. M. Wenyon.

151. The Genera *Councilmania*, *Karyamœba* and *Caudamœba* — C. M. Wenyon.

152. Mosquitoes under Winter Conditions — Malcolm E. MacGregor.

*153. *Tetracampos* Wedl, 1861, as a Genus of the Bothriocephalidae—W. N. F. Woodland.

154. Bactericidal Action of Some Organic Compounds of Mercury —T. A. Henry, T. M. Sharp and H. C. Brown.

*155. Coccidia and other Parasites of the Wallaby—C. M. Wenyon and H. H. Scott.

*156. Isospora of Dogs — C. M. Wenyon and L. Sheather.

157. Spirochætal Jaundice in Great Britain—Edward Hindle and H. C. Brown.

158. On *Proteocephalus marenzelleri*, *P. naiae* and *P. viperis*—W. N. F. Woodland.

159. On Some Remarkable new Monticellia-like and Other Cestodes from Sudanese Siluroids—W. N. F. Woodland.

160. On Three new Proteocephalids (Cestoda) and a Revision of the Genera of the Family— W. N. F. Woodland.

*161. Letter on "Standardization of Bacterial Vaccines" — H. C. Brown.

** The numbers marked with an asterisk are out of print*

1926

162. The Differentiation of Food-poisoning Bacteria — H. C. Brown, J. T. Duncan and T. A. Henry.

163. Note on "Sections of the Intestine of a Kitten, Presumably Infected with *Entamœba histolytica* by Rectal Injections of Cysts alone"—C. A. Hoare.

164. On the Genera and Possible Affinities of the Caryophyllæidæ—W. N. F. Woodland.

165. Coccidia of the Genus Isospora in Cats, Dogs and Man—C. M. Wenyon.

166. A Comparative Study of the Structure of the Head and Mouth-Parts in the Hippoboscidae (Diptera Pupipara)—B. Jobling.

*167. Probable Case of Equine Leishmaniasis (Note)—C. M. Wenyon.

*168. Public Health Propaganda and Education: A Review of the Present Position in Great Britain—S. H. Daukes.

*169. Medical Entomology and the Tropical Field Worker—Malcolm E. MacGregor.

*170. Some Effects of Electric Current on Mosquito Development—Malcolm E. MacGregor.

*171. Propaganda Work in America—S. H. Daukes.

1927

*172. The Wellcome Museum of Medical Science—S. H. Daukes.

*173. Health Propaganda in China—S. H. Daukes.

*174. Epidemic Catarrhal Jaundice: Some Notes on the Epidemiology of the Disease and an Account of an Epidemic in the Midlands — H. C. Brown and M. T. Morgan.

*175. Trypanosomidae Doflein—C. A. Hoare.

176. Schewiakoff's Keys for the Determination of the Holotrichous Ciliates—C. A. Hoare.

177. Studies on Coprozoic Ciliates—C. A. Hoare.

178. The Adhesion Phenomenon: A Specific Serological Reaction occurring in Trypanosomiasis—L. J. Davis and H. C. Brown.

*179. Protozoal Section, Zoological Record—C. A. Hoare.

*180. The Wellcome Museum of Medical Science—S. H. Daukes.

181. On *Dinobothrium septaria* Van Beneden 1889, and *Parabothrium bulbiferum* Nybelin 1922—W. N. F. Woodland.

182. The Adhesion Phenomenon as an Aid to the Differentiation of Leptospira—H. C. Brown and L. J. Davis.

183. On the Coccidia of the Ferret—C. A. Hoare.

184. A Revised Classification of the Tetraphyllidean Cestoda, with Descriptions of some Phyllobothriidae from Plymouth—W. N. F. Woodland.

BOOKS AND OTHER PUBLICATIONS

Human Intestinal Protozoa in the Near East—C. M. Wenyon and F. W. O'Connor.

War Against Tropical Disease—Andrew Balfour.

Barrier Charts for Health Officers: A Synopsis of Preventive Measures against Communicable Disease, in Four Tables—S. H. Daukes.

Protozoology: A Manual for Medical Men, Veterinarians and Zoologists—C. M. Wenyon.

Mosquito Surveys: A Handbook for Anti-Malarial and Anti-Mosquito Workers — Malcolm E. MacGregor.

** The numbers marked with an asterisk are out of print*

List of Authors

Balfour, Andrew, C.B., C.M.G., M.D.
[2] Broughton-Alcock, W., B.A., M.B., M.R.C.S.
Brown, Major H. C., C.I.E., M.B., D.T.M. & H.
Bugg, H. G.
Daukes, S. H., O.B.E., M.B., D.P.H.
Davis, L. J., M.B., Ch.B.
[2] Dobell, Clifford, M.A.
Dudgeon, G. C., C.B.E., F.E.S.
[2] Duncan, J. T., F.R.C.S.I., D.T.M. & H.
[2] Gébert, S.
[1] Henry, T. A., D.Sc.
[2] Hindle, Edward, M.A., Ph.D.
Hoare, C. A., D.Sc.
Jobling, B.
[2] Jones, J. Llewellyn, M.D., B.S., M.R.C.S.
[2] Low, G. C., M.A., M.D., F.R.C.P.
MacGregor, Malcolm E., M.A.
[2] Manson-Bahr, P. H., D.S.O., M.D., M.R.C.S., D.T.M. & H.
[2] Morgan, M. T., M.C., M.B.
Muggleton, W. J.
[2] O'Connor, F. W., M.R.C.S., L.R.C.P.
[1] Pyman, F. L., D.Sc., Ph.D., F.R.S.
Scott, H. H.
Sharp, T. M., M.Sc.
[2] Sheather, L., D.Sc.
Stammers, Lieut.-Colonel G. E. F., O.B.E., M.R.C.S.
Stevenson, A. C., M.B., D.P.H.
Wenyon, C. M., C.M.G., C.B.E., M.B., F.R.S.
Woodland, W. N. F., D.Sc.

Authors are past or present members of the staff of the Wellcome Bureau of Scientific Research except as follows :—

[1] Wellcome Chemical Research Laboratories.
[2] A collaborator, but not a member, of the Wellcome Bureau of Scientific Research staff.
